Career Objective

Computer Science student seeking opportunities in software development and machine learning to build scalable, real-world applications and continuously enhance technical and problem-solving skills.

Skills

Languages: Java, Python, C, SQL, JavaScript

Web Technologies: HTML, CSS, React, Node.js

Tools & Platforms: Git, Postman

Core Concepts: Data Structures and Algorithms, Machine Learning, System Design, Data Analytics

Experience

Full Stack Developer Intern

Feb 2026 – Present

Ever Code Tech Services (Remote)

- Working on real-time full stack development projects, applying frontend and backend technologies to build scalable applications.
- Gaining hands-on experience in developing, testing, and optimizing web-based solutions under industry-level workflows.
- Collaborating with mentors and team members to understand system design, debugging, and deployment practices.
- Strengthening practical knowledge of integrating databases, APIs, and user interfaces in real-world scenarios.

Projects

Digital Twin-Based Bus Transportation System

Dec 2025 - Feb 2026

GitHub

- Designed and developed a multi-layer Digital Twin architecture to model buses, routes, bookings, and trip operations.
- Implemented backend validation logic to handle concurrent bookings and ensure data consistency.
- Tested 25+ real-world scenarios covering booking, cancellation, and system workflows.
- Achieved synchronization across frontend, backend, and database layers.

EcoLink – Recyclable Waste Collection Platform

Oct 2025-Dec 2025

GitHub

- Built a full-stack platform for scheduling recyclable waste pickups with flexible reward options.
- Designed a zone-based system improving collection efficiency and reducing redundant trips.
- Implemented real-time status tracking for users and recyclers.
- Developed backend using PHP and MySQL for managing users and operations.

Personal Portfolio Website

May 2025

Live

- Developed a responsive portfolio website showcasing projects, skills, and achievements.
- Focused on clean UI, responsiveness, and accessibility across devices.

Education

B.Tech. Computer Science and Engineering (AI & ML)

2023 – 2027

Kalasalingam Academy of Research and Education, Tamil Nadu, India

CGPA: 8.56

Intermediate (MPC)

2021 – 2023

Ignite Junior College, Hyderabad, India

Percentage: 90.4%

Languages

English, Hindi, Telugu

Hobbies

Reading, Sports, Problem Solving
